

ANKITA NAG

Product Designer | UX/UI Designer | AI-Driven UX

Chennai, India | +91 7674002282 | ankita.uxdesigner@gmail.com

LinkedIn: <https://www.linkedin.com/in/ankitanag> | Portfolio: <https://nag-ankita.github.io>

SUMMARY

Product designer with nearly 5 years of UX design experience at Tata Consultancy Services, designing AI-powered, enterprise and logistics products end to end, including 1 year leading a design team. I design AI products (a conversational AI interview coach with an AI avatar and explainable evaluation) and design with AI (Claude, ChatGPT, Gemini, Google Stitch) to move from research to tested prototype faster.

CAREER HIGHLIGHTS

- **AI product:** redesigned a conversational AI interview coach; shortlisting time **-40%**, interview completion **+25%**.
- **Growth:** retention **+28%** and daily active users **+35%** on an enterprise learning platform, 10+ features in 4 months.
- **Efficiency:** task time **-21%** and errors **-18%** across a logistics operations suite for a UK postal service.
- **Initiative:** conceived, pitched and shipped Codewars, a competitive coding feature; led a design team for 1 year.

CORE SKILLS

AI Product Design: AI-driven UX, conversational UI (chat and voice), AI avatar design, explainable AI and trust, human-AI interaction

AI Tools: Claude, ChatGPT, Gemini, Google Stitch for research synthesis, ideation, rapid prototyping and AI-assisted development

UX and Product Design: Interaction design, UI and visual design, information architecture, user flows, wireframing, prototyping, design systems, dashboards and data visualization, responsive web and mobile

Research and Testing: User research, interviews, surveys, personas, journey mapping, usability testing, A/B testing

Domains and Leadership: Enterprise and B2B platforms, data-heavy interfaces, gamification, accessibility (WCAG), design team leadership, stakeholder management

Design Tools: Figma, Adobe XD, Illustrator, Photoshop, Miro, Framer

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) | UX Designer

Dec 2021 - Present

Lead UX end to end on four enterprise and AI-powered products, from research and user flows to high-fidelity UI, prototypes and developer handoff. Led a design team for 1 year, setting design direction and running design reviews.

PRODUCTS AT TCS

Logistics Operations Platform, UK postal service client

Jul 2025 - Present

Platforms used by planners, operations teams and supervisors to plan and run daily postal operations.

- Reduced task time by **21%** and errors by **18%** by redesigning duty planning, arrival and departure, processing and journey management workflows.
- Built a shared, accessible pattern kit (status chips, filters, data tables, Gantt views) used across every module.
- Designed one exception language (blocked, discrepancy, data quality, watch) so problems are spotted and acted on quickly.

AI Interview Platform, conversational AI coach (chat and voice)

Nov 2024 - Jul 2025

AI product where employees practise client interviews with an AI interviewer; recruiters review the results.

- Designed the human-AI conversation as a four-step flow with a low-stakes warm-up question to build trust.

- Created an AI avatar that explains what the AI evaluates; interview completion rose **25%** and repeat usage **32%**.
- Turned raw AI evaluation data into summary-first recruiter reports, cutting shortlisting time by **40%** and rework by **18%**.

Gamified Learning Platform, internal upskilling product

Dec 2021 - Jul 2025

Courses, learning paths, certifications and hands-on challenges for employees, managers and admins.

- Shipped 10+ features in 4 months: retention **+28%**, daily active users **+35%**, onboarding drop-offs **-22%**.
- Conceived, pitched and designed Codewars (head-to-head arena, seasonal leaderboard, credits, rewards) and shipped it with engineering.
- Designed the admin analytics dashboard, role-based access control (RBAC) center, global search, associate skill profile and bootcamp hosting.
- Delivered a full platform redesign with a consistent component system, approved by stakeholders.

Hands-On Challenge Platform, in-house authoring tool

Dec 2021 - Jul 2025

Tool for subject matter experts to create, review, publish and monitor technical challenges, replacing vendors.

- Interviewed 4-6 experts in person and found four core problems, from fragmented tools to no collaboration.
- Designed a guided editor with live preview, co-authoring with review states, and live attempt monitoring.
- Challenge completion **+27%**, errors **-23%**, task success **+19%** (A/B tested).

Nandani Creations | Womenswear Designer

Mar 2019 - Jun 2019

Designed womenswear collections from concept and trend research to finished garments, increasing sales by **20%**.

C.N. Dezine Studio | Assistant Womenswear Designer

Mar 2018 - Nov 2018

Supported collection development: concept research, mood boards, illustration and garment development.

SELECTED PROJECTS

Portfolio Website, <https://nag-ankita.github.io>

2026

Designed and built a responsive React portfolio of 14 case studies through AI-assisted development with Claude.

Bespoke Town, AI-first custom tailoring mobile app

2025

AI body measurements and style recommendations; end-to-end UX from a 16-user survey to a tested prototype.

UX Case Studies: Save Earth, FlowerBee, BellCafe, LightBulb

2021

Four mobile and web products designed in Figma and Adobe XD, refined through 4 usability studies (20 participants).

EDUCATION AND CERTIFICATIONS

Bachelor of Design (B.Des), National Institute of Fashion Technology (NIFT), Hyderabad

2013 - 2017

ISC (Commerce), City Convent School, Lucknow

2010 - 2012

CERTIFICATIONS

- Human-Computer Interaction (HCI), Interaction Design Foundation (IxDF), 2024
- Design Thinking: Customer Experience, LinkedIn Learning, 2023
- Google UX Design Professional Certificate, Coursera, 2021

ADDITIONAL

- 3rd place, Lollypop Designathon, Bengaluru
- Guest Faculty and Jury Member, NIFT Chennai
- Participant, Madras Management Association (MMA) Competition for Young Managers
- Graduation runway collection, Nature's Wardrobe, covered by The Hindu (2017)

Languages: English, Hindi
